

Aquarian Planet Names

In the Source Family - in the early days – Bonadea (one of our sisters) had an experience in which she left her body and flew past all the planets ! There were 13 of them . . . and each one made its own sound and gave her a Name. Bonadea was our one of our Family Astrologers . . . and she brought this back to Father and He made a list of the new Names and Symbols. We even had a song that the children sang with all the names.

Sun – Omne

Mercury – Tahuti
